

ONLY
\$999
a year per
school-site access

Grades
K-12

At \$999 a year per school, QuickMind is amazingly affordable.

And as it qualifies for multiple Federal Funding opportunities, there is no better value in education.

Online
24/7

QuickMind includes language arts, math and science from these great Sunburst titles.

Key Skills
Tenth Planet
Math Pathways

QuickMind helps you....

- Supports response to Intervention (RTI)
- Supplemental
- Provides Enrichment and Remediation
- Works for Bilingual, Gifted, At-risk and Special Needs
- Can be assigned by individual, group or class
- Appropriate for home, after school, summer, and – of course - in-class learning at individual stations or with a whiteboard
- Affordable

QuickMind doesn't only help stretch your budget, it will also help you stretch time as you use QuickMind tools and resources to quickly and easily create, assign, grade and track to standards. Finding activities to address remediation and multiple learning styles, tied directly to standards, happens at the click of a button.

QuickMind also helps stretch your students' learning time, as QuickMind can be accessed from any computer on the Internet. Assignments and resources are available at the library, at home, during breaks and over holidays. Help parents help students extending learning to home time with QuickMind's parent communication tools and 24/7 resources for learning for the whole family.

Your school gets all the best, with one simple login.

No disks, no drives and no drama as students, parents and teachers login anywhere and access content that is timely and top-rated, customized to individual standards and unique learning situations.

QuickMind gives you access to some of the educational software programs from Sunburst, a company you've used and trusted for more than 20 years. The activities in these programs are now available for you to assign to an individual, group or entire class, activity by activity.

Identify gaps in standards achievement and assign activities that will help close that gap from the easy-to-use teacher section of QuickMind. Create a test – QuickMind can propose questions based on the standards that you want to evaluate – print the test and have the students complete it with pencils

OR conduct it online, where QuickMind can provide both you and your students immediate evaluations and feedback.

The annual subscription allows all the stakeholders in your school access to QuickMind 24/7. Parents and teachers can use QuickMind to easily communicate. Beyond the work assigned through QuickMind, which can be completed anywhere the student has access to the internet, they have access to all of the resources in QuickMind, also available 24/7. Your teachers' lives will be made easier thanks to QuickMind's Generators: there are

generators for Projects, Tests and Quizzes, Words Searches and Crosswords and Web Hunts.
